

Assistant Director of Care

Melanie Besser

Continuous Quality Improvement Initiative Annual Report

Annual Schedule: May 2025

HOME NAME : Thortonview LTC							
People who participated development of this report							
	Name	Designation					
Quality Improvement Lead	Beverley Rayside	ED					
Director of Care	Teresa Wierzbicka	RN					
Executive Directive	Beverley Rayside	ED					
Nutrition Manager	Sharmistha Some	NM					
Programs Manager	Caroline Connelly	PM					
Environmental Services Manager	James Low	ESM					
Residen Services Coordinator	Karen Knight	RSC					

Summary of the Home's priority areas for quality improvement, objectives, policies, procedures and protocols from previous year (2024/2025): What actions were completed? Include dates and outcomes of actions.

Quality Improvement Objective	provement Objective Policies, procedures and protocols used to achieve quality improvement in					
who would positively respond to the	 Change Idea #1: Ensure all families are provided information on how to form a Family Council Process measure: Audit new admission package to ensure "How to form a Family Council 	Outcome: 2024/2025 - 63.30%				
	information" is included. Track which months "How to form a Family Council" information is	Target - 85%				
home" on the Annual Family	included in the Newsletters and Family Forum meetings	2025/2026 - 65%				
Satisfaction Survey.	> Target for process measure: 100% of families receive information on how to form a Family Council					
	> Lessons Learned: This was successfully implemented. The information is currently included in the admission package					
	> Change Idea #2: Ensure all families receive invitations to attend quarterly Family Forum meetings > Process measure: Complete tracking to ensure all families receive invitations to Family Forum > Target for process measure: 100% of our families will receive notification or an invitation to quarterly Family Forum meetings > Lessons Learned: All families with email contact receive invitation via email. Notice is posted in the home and added to the Family Newsletter. We have seen a slight increase in attendance. Challenges: Participants are not tech savey.					
	> Change Idea #3: Family members to be included in quarterly Quality Council meetings > Process measure: Family members will be called to determine if they would be interested and available to attend a Quality Council meeting. If response is positive, an invite will be sent by email or Canada Post if there is no email > Target for process measure: Family members will be in attendance at all Quality Council Meetings > Lessons Learned: A Family representative is invited to quarterly quality council which has been successful.					

Indicator #3 - Percentage of family members who would positively "respond to the statement" ("Ontinence care products are available when the resident needs them" on the Annual Family Satisfaction survey **Torcess measure: Increase positive response to 75% Satisfaction on 2024 Survey to the statement "Continence care products and their use in LTC with dambing to compare the statement "Continence care products and their use in LTC with dambing to packages" > Process measure: Will create an audit tracking to cross reference with resident product needs and include family education on incontinence products and their use in LTC with dambing packages and include family education on incontinence products and their use in LTC with dambing packages and include family education on incontinence products and their use in LTC with dambing packages and include family education on incontinence products and their use in LTC with dambing packages. > Process measure: Will create an audit tracking to cross reference with resident product needs them." > Lessons Learned: This famage idea was not successfully implemented use to turnover of clinical team. Will be revisited in 2025 > Change Idea #2 (NOT IMPLEMENTED): Implement use of Prevail signs posted in resident closets for easy referral by PSWs > Process measure: Tracking tool to be created. Random monthly audits conducted to ensure process is working and efficient > Target for process measure: increase positive response to 75% Satisfaction on 2024 Survey to the statement "Continence care products are available when the resident needs them." > Lessons Learned: The honge idea not successfully implemented due to turnover clinical team. Will be revisited in 2025 > Change Idea #3: Implement use of updated incontinence product change form by PSWs > Target for process measure: Increase positive response to 75% Satisfaction on 2024 Survey to the statement "I am satisfied with the variety of spiritual care services." Decision Learned: The honge is process measure: Increase po			
information quarterly in the monthly Family Newsletter on continence products and their use and include family education on incontinence products and their use in LTC with admission packages > Process measure: Will create an audit tracking to cross reference with resident product needs > Target for process measure: lincrease positive response to 75% Satisfaction on 2024 Survey to the statement "Continence care products are available when the resident needs them" > Lessons Learned: This change idea was not successfully implemented due to turnover of clinical team. Will be revisited in 2025 > Change Idea #2 (NOT IMPLEMENTED): Implement use of Prevail signs posted in resident closets for easy referral by PSWs > Process measure: Tracking tool to be created. How Annual Quality Initiatives Are Selected

The continuous quality improvement initiative is aligned with our mission to provide quality care and services through innovation and excellence. The home has a Continuous Quality Improvement Committee comprised of interdisciplinary representatives that are the home's quality and safety culture champions. An analysis of quality indicator performance with provincial benchmarks for quality indicators is completed. Quality indicators below benchmarks and that hold high value on resident quality of life and safety are selected as a part of the annual quality initiative. Emergent issues internally are reviewed for trends and inccorporated into initiative planning. The quality initiative is developed with the voice of our residents/families/POA's/SDM's through participation in our annual resident and family satisfaction survey and as members of our continuous quality improvement committee. The program on continuous quality improvement follows our policies based on evidence based best practice.

Summary of Resident and Family Satisfaction Survey for Previous Fiscal Year

Date Resident/Family Survey Septem

September 3, 2024 to October 11, 2024.

Results of the Survey (provide	Resident Survey
description of the results):	The top 5 strengths for ThorntonView were:
	1. I am aware of the recreation Programs offered in the home
	2. I trust the staff in the home
	3. The staff are friendly
	4. I am satisfied with the quality of care from nursing staff
	5. I am satisfied with the quality of care from personaal support staff.
	The top 5 areas for opportunities at ThorntonView were:
	1. Bladder care products keep me dry.
	2. Bladder care products are available when I need them
	3. I am satisfied with the quality of care from the social worker
	I can provide feedback about the products used for me
	5. I have imput into the recreation programs available.
	Family Survey
	The top 5 Strengths at ThorntonView
	1. I am aware of the recreation services offered in the home

Process for ensuring quailty initiatives are met

Our quality improvement plan (QIP) is developed as a part of our annual planning cycle, with submission to Health Quality Ontario. The continuous quality team implements small change ideas using a Plan Do Study Act cycle to analyze for effectiveness. Quality indicator performance and progress towards initiatives are reviewed monthly and reported to the continuous quality committee quarterly.
